

Activity Incidents & Injuries Guidelines

The following guidelines refer to an accident or injury occurring when away on events or trips and other activities. While it is difficult to describe a procedure that will fit every circumstance, these are the key points you should follow: All activities must have a nominated **responsible** person in attendance; they are there to take charge and assess initially in the event of an incident or injury. This could be a qualified first aider, committee member, coach, etc. *Sports Therapy students are limited to first aid only and cannot treat major injuries.* If in doubt seek professional advice.
