

## **Rep Forums Discussion**

Our recent Rep Forum meetings which took place in November covered key updates from Elliot Atkinson (Vice President Education 2024-25), Ann Jordan (Provost) and various ARCs (Academic Representation Coordinators), as well as some great discussions from your Course Reps and Department Reps. Elliot emphasised fostering inclusivity for neurodiverse students, addressing the cost-of-living crisis, and strengthening student support through initiatives like the SU's Breakfast Club and community-building among student reps. University updates highlighted the work around student retention and satisfaction by acting on feedback and enhancing courses. Discussions also took place around assessments, placements, resource shortages and the detrimental impact of unclear assessment processes on student confidence.

Thank you to everyone who attended and keep an eye on this page for the dates of next Semesters Rep Forums Meetings.
